1. What is tyniverse?

tyniverse is a collection of Typst presets to provide a starting point for your writing. As of now, it provides presets for:

set-font() Chinese & English font support.

typesetting A typesetting preset.

template A template for writing a document.

homework Homework template with `simple-question` and `complex-question` frame to write your homework.

cheatpaper A cheatpaper template.

2. How to use tyniverse?

Simply import it from Typst Universe:

```
#import "@preview/tyniverse:0.2.3": homework
```
